- Harville, Emily, Amber Sullivan, Cam Tu Nguyen. “Predictors of Intimate Partner Violence among Women from Southern Louisiana.” Minority Health and Health Disparities Grantees' Conference, National Harbor, December 2014.

PROFESSIONAL RESEARCH EXPERIENCE

- Project Coordinator*** for *Performance of Vietnamese Instruments Validation Sub-Study* with Dr. Emily Harville at the Department of Epidemiology, Tulane University. I designed and implemented a study to assess the precision of the main study's instruments.
- Field/Scientific Research Analyst*** for *Transdisciplinary Research Consortium for Gulf Resilience on Women's Health* with Dr. Emily Harville at the Department of Epidemiology, Tulane University. I collected qualitative and quantitative data on the effects of the 2010 BP oil spill, hurricanes and lifetime adversity on participating reproductive aged women. I built relationships with community clinics to expand recruitment sites and managed the Vietnamese arm of the study.
- Community Liaison*** for Restaurant Opportunities Center United's *Healthy Meals, Healthy Workers* short-term project. I implemented the Centers for Disease Control and Prevention's CHANGE tool as part of a city-wide assessment of local Asian American and Pacific Islanders health needs in the greater New Orleans area. I examined products carried by local groceries stores and conducted standardized questionnaires with grocery store and restaurant owners.

Community/Youth Organizer for a Youth Participatory Action Research Project with the Vietnamese American Young Leaders Association of New Orleans. I conducted standardized questionnaires and in-depth interviews on the experiences of English Limited Learning students and parents in New Orleans charter schools. I also designed and taught research methods/design for youth activists through workshops.
